All the best opportunities in medicine are right here.

myHealthTalent.com makes access to the top medical and health care jobs easy. It's the place medical professionals trust, where respect is utmost, and users are treated like the top talent they are. We welcome your suggestions and contributions.

San Diego: Sun, Surf & More

When you think of California's beaches and warm climate, the Pacific Coast city of San Diego comes to mind. This eighth largest US city has been called "the birthplace of California" and is fast becoming a healthcare development and biotechnology research center, thanks in part to the presence of the University of California, San Diego Medical Center.

Visitors, for their part, adore San Diego's mild year-round climate, world famous attractions and easy-going friendly atmosphere. The following attractions will make your visit to San Diego feel like you've officially spent time in California.

LA JOLLA SHORES & SEA CAVES

La Jolla shores is a mile-long beach with soft sand, clean water and gentle waves, making it ideal for sun bathers and nascent surfers. It is consistently ranked one of the best family-friendly beaches in the United States with its grassy picnic areas, a cheerful playground and the nearby Kellogg Park. LaJolla shores also boasts fire pits and volleyball courts and offers a limited number of beach wheelchairs. Dogs are permitted before 9am and after 6pm (4pm winter months) daily.

La Jolla Sea Caves is an underwater marine preserve consisting of 7 sister caves formed from a 75-million-year-old sandstone cliff. This seaside cavern is replete with sightings of seals, sea lions, dolphins, pelicans, (gentle) leopard sharks and other wildlife. The caves are situated in one of the most beautiful settings, with picturesque Torrey Pines State Park's Cliffs and La Jolla as its backdrops. Kayaking tours for cave exploration are

available year-round for all skill levels, given optimal ocean conditions. La Jolla Coast Walk trail offers hiking from La Jolla Shores beach to La Jolla Cove.

As if the abundant outdoor activities weren't enough, La Jolla also has a beautiful seaside village with opportunities for shopping and dining for every budget. You can easily make a day of the "Jewel City" and experience everything it has to offer.

lajollabythesea.com

BALBOA PARK

Named for the Spanish maritime explorer Vasco Nuñez de Balboa, Balboa Park is a 1,200-acre urban cultural park managed and maintained by the Parks and Recreation Department of San Diego. In addition to open space areas, gardens, walking paths and natural vegetation, there is also the world-famous San Diego zoo. The Park also offers multiple attractions like art studios, carousel ride and a mini railroad. It is home to fifteen major museums such as Marston House, Centro Cultural de la Raza and Fleet Science Center. The Botanical Garden, California Native Plant Garden and Alcazar Garden are a few of the cultural attractions among Balboa Park's lush gardens. Performing Arts in

the Park offer family fun with Marie Hitchcock Puppet Theater and dancing at Bon Temps Social Club.

balboapark.org

MISSION BEACH/CORONADO BEACH

The classic boardwalk beach with almost two miles of ocean-front boardwalk, Mission Beach offers rental shops, miniature golf, bumper cars, rock climbing and an arcade. Belmont Park, an amusement park on the boardwalk featuring the Giant Dipper Roller Coaster is a main attraction for the millennial crowd with plenty of bars and a hot nightlife scene. Walking, jogging and biking are permitted on the boardwalk. Surfing boogie boarding and kite-boarding are also popular activities.

For a more romantic or family-friendly beach setting, Coronado's long sandy beaches are just the ticket.

Consistently voted one of America's finest beaches, the sand literally sparkles thanks to mineral mica. Take a stroll along Orange Avenue's shops and restaurants with a backdrop of homes and mansions and the Hotel del Coronado (featured in Marilyn Monroe's 1958 film "Some Like It Hot"). Drive across the 200-foot tall Coronado Bridge and treat yourself to one of the best views in San Diego. Enjoy the tranquil waters of the San Diego Bay while enjoying views of San Diego.

sandiego.org/explore/things-to-do/beaches-bays.aspx

GASLAMP QUARTER

The Gaslamp Quarter is a historic 16½ block district in Downtown San Diego near the Convention Center. The Gaslamps became a symbol of the district during its redevelopment in the 1980s despite their not being the main source of lighting. Formerly known as New Town, it is the site of numerous entertainment and night life venues, festivals and other events, including Mardi Gras, Taste of Gaslamp and Street Scene Music Festival. Much of the architecture of the district dates back to the Victorian Era and are still used today by tenants who operate restaurants, shops and nightclubs.

In the heart of Gaslamp is Michael J Wolfe Fine Arts. It has been the premiere location for original works and fine arts exhibits from international, national and up-and-coming local artists for almost 20 years. Gaslamp District also has theatres offering entertainment from movies to musical acts and dining at restaurants ranging from hip to high end.

Gaslamp Quarter celebrates its 150th anniversary this year. Join the celebration with a walking tour while hearing stories of the past.

gaslamp.org/

TORREY PINES STATE RESERVE

Hiking trails, plants and animals abound in this geological wonder located in La Jolla. This Natural Preserve is 2,000 acres of the wildest land on the California Coast, with 1,500 acres remaining as it was before San Diego was even developed! It gives you an idea of how the Kumeyaay people, California's original inhabitants, lived on the unspoiled lands and how it must have looked to early settlers. Visitors the world over go to Torrey Pines to enjoy the breathtaking overlooks, to walk the trail or to generally be at one with nature. Because Torrey Pines is a Natural reserve, there are restrictions in place to protect the beaches, the lands, the plants and the animals that inhabit them. No food or drinks are permitted (no trash cans are provided to drive home this rule). No pets are allowed anywhere in the reserve. Groups of 25 or more visitors must obtain a permit to be on the land.

Visit the website for details on free public walking tours for families and small groups.

torreypine.org

HOUSE OF HINTS

Escape the distractions of the world for an hour and put your problem-solving faculties to work in one of America's top ten escape games venues. You are locked in a room together with a group of 3-5 people and must work together solving puzzles and sorting through clues to find the key that unlocks the door to your freedom. A moderator, or host, facilitates with clues and with 8 rooms ranging in difficulty, there are activities for different skill levels.

House of Hints keeps information close to the vest to keep the mystery intact, so you won't find detailed web site pages or in-depth reviews of their facilities. If you enjoy solving mysteries, puzzles and code cracking (while racing against time), you will love House of Hints.

houseofhints.com

USS MIDWAY MUSEUM

As one of America's longest serving aircraft carriers, you get the opportunity to experience life as a US sailor during the 20th century. The USS Midway is a maritime museum at Navy Pier that operated from 1945 to 1993 during which time over 200,000 sailors served aboard. More than 1 million visitors each year visit the popular naval warship museum, which hosts more than 700 events annually, including an overnight program for children. USS Midway offers self-guided audio tours narrated by former Midway sailors for locations ranging from the engine room and galleys to the sleeping quarters and officers' quarters. Additionally, twenty-nine restored aircrafts on board help

Medicine and Public Health
Cardiovascular Medicine Division
Opportunities**

**Cardiologist/Electrophysiologist
with Interest in Syncope**

Candidates must be BC/BE Cardiologist or Electrophysiologist with interest in the evaluation and management of patients with syncope. Skills in invasive clinical cardiac electrophysiology procedures including device implantation and management, and diagnostic electrophysiologic testing are preferred but not required. In addition to clinical responsibilities at the *Faint and Fall Clinics*, the successful candidate will have an opportunity to participate in clinical research and teaching medical students, residents and fellows. Minimum requirements include BC/BE in Cardiovascular Medicine, and in Clinical Cardiac Electrophysiology if interested in performing invasive clinical electrophysiology procedures.

Electrophysiology

The Cardiovascular Division at the University of Wisconsin, Madison is seeking a **BC/BE Cardiac Electrophysiologist** with expertise in complex ablations to join our Arrhythmia Service. We have 7 faculty members involved with the full spectrum of EP procedures including device implants, AF and VT ablations, and lead extraction. The successful candidate will work closely with the team to continue to build the EP service including the VT ablation program.

With a population of around 250,000, Madison, WI has the distinction of being annually ranked as one of the best U.S. cities in which to live. Built on an isthmus, Madison is surrounded by Lakes Mendota and Monona with lots of outdoor activities. In addition to being home to one of the top universities in the U.S., this environmentally friendly capital city boasts a superior public school system with low cost-of-living and crime rate.

Interested candidates should forward CV and cover letter, *indicating position of interest*, to:

Lori Zemlicka, MBA, Division Administrator
Dept. of Medicine
Division of Cardiovascular Medicine
(608) 263-2489 (office)
lzemlicka@medicine.wisc.edu

UW Madison is an AA/EEO employer; Caregiver and open records laws apply.
A background check will be conducted prior to employment.

OLD TOWN SAN DIEGO STATE HISTORIC PARK

Explore California's history when you visit Old Town San Diego State Historic Park. Old Town San Diego's 19th century buildings are protected lands, preserved to look as it did during the Mexican and early American periods. It was once the seat of San Diego County until the late 1800, when settlers began moving to New Town (what is now known as the Gaslamp Quarter).

Five original adobes (clay houses) are part of the park and include shops, restaurants and museums. The museums are free of charge and feature restored and reconstructed 19th century offices, schools and businesses such as First San Diego Courthouse and Colorado House, a stage-coach stop and telegraph office. Old Town is also known for its authentic Mexican food and lively entertainment. Live Mariachi performers are daily attractions and local cantinas such as Old Town Mexican Café y Cantina and Café Coyote offer indigenous Mexican cuisine in open-air spaces. For more upscale dining, there is El Agave, home to an amazing Tequila collection.

sandiego.org/articles/old-town/old-town-san-diego.aspx

SAN DIEGO ZOO SAFARI PARK

The San Diego Zoo is in Balboa Park and is home to over 3,700 animals. They pioneered the concept of the cageless exhibit, opting instead for natural animal habitats. They are also one of the few zoos in the world that successfully breed pandas. The Zoo offers guided tours by bus or by overhead gondola (called the Skyfari) throughout most of the park.

The Safari Park offers a more up close experience of the zoo with activities that put visitors closer to the African plains animals and their environment.

Activities include open air caravan safari rides, zip line safaris, overnight camping and other supervised adventures. The ticket prices are higher than average zoo prices, but there is a discount for advanced purchase. Members receive free unlimited admission to the San Diego Zoo and the Zoo Safari Park. Visit the website for details about events and admission.

Want To Compete In Today's Job Market? Age-Proof Your CV

Ageism is a major challenge in every industry and medicine is no exception. Now more than ever, it's important that you do all you can to protect yourself. Right now, having too much experience can be detrimental to your job prospects. According to a 2015 study by AARP Public Policy Institute, a non-government organization for people aged 50 years and older, age discrimination has become the most prevalent discrimination in the workplace. Surveys on workplace age discrimination reveal that more than 60% of workers have experienced or witnessed age discrimination.

"Most people won't even interview you at my age," says Joseph Heether, MD, a General Surgeon with over 28 years of experience. "I would talk to a hospital recruiter who says my CV and record look great, then never get a call from the hospital they were forwarded to. I never thought my age would be a problem in my profession"

Age-Proofing Your CV is a Necessity

In addition to age, older workers are also at a numbers disadvantage which further exacerbates the problem. There are 89 million millennials (born 1981 through 1996) and 49 million Generation Xers (born 1965 through 1980) compared to 75 million baby boomers (born 1946 through 1964). Yet labor participation rate for those aged 55 to 64 is only around 65% while the rate is over 81% for those aged 25 to 54. Add to that the cost analyses companies engage in when making hiring decisions. The greater experience and higher salary requirements of an older doctor makes them expensive to companies looking to retire older and hire younger. "(Companies) are hesitant to take a chance on you when you're older," notes Heether. "They're afraid you may not want to work for the money they're offering. They figure also you may only be able to give them at most 10 years."

What Can You Do?

The first order of business as a job-seeker – get the interview. Your CV should not be more than 2 pages long and it is important you limit your experience to the past 10 years. Going back any further will date you. It's also best if you exclude the years you graduated from college and medical school. The Age Discrimination in Employment Act (ADEA) prohibits age discrimination against people 40 and older, but it persists and is insidiously widespread.

Is It Your Age or Your Salary?

If you've made it through the initial screenings because you edited your CV you could end up sitting across from a hiring manager who is not much older than your child with a mandate to hire based on an unofficial profile. At this point, being transparent is advisable. Remember, it is illegal to discriminate against an applicant 40 or older, so it may be difficult to tell whether any objection is to your age or to your higher salary requirement. Use the opportunity to overcome their prepared list of objections. Talk about the value your experience will bring and be one step ahead. Make it clear to the interviewer that your qualifications fit the profile and that you have no disqualifying health issues. You can suggest being brought on at the higher end of the salary range. You want to drive home the point that you're happy to come on board in a way that's comfortable for them. Getting your foot in the door is what matters most; it's much easier to discuss future opportunities for review and compensation when you're already in and can demonstrate the value you bring to the job.

Be More Than a Commodity

Try to think like a hiring manager. Return on investment, cost savings, and how you can add value to the position should be the focus of how you sell yourself. It's not enough anymore to have been in one place for 20 years. Thoroughly research a company, talk to people inside and outside the company, and learn exactly what they are looking for to tailor your presentation. You may not be able to do anything about a few gray hairs, but there are other areas you can control to cut your job search from months down to weeks.

You'll probably be interested to know that after several weeks, Dr. Heether landed a position at a new facility in Southern New Jersey.

STANFORD

SCHOOL OF MEDICINE

Stanford University Medical Center

The Division of Pediatric Cardiology in the Department of Pediatrics at Stanford University seeks a pediatric cardiologist with expertise in non-invasive cardiac imaging to join the Division and Department as an Associate Professor or Professor in the Medical Center Line professoriate and serve as Medical Director of the Echocardiography Laboratory at Lucile Packard Children's Hospital Stanford (LPCHS).

The successful applicant must have a MD degree or its equivalent. Candidates should have clinical training in Pediatrics and Pediatric Cardiology (completed fellowship and be board certified) plus advanced clinical training and/or extensive experience in non-invasive cardiac imaging. He/she will have demonstrated outstanding clinical abilities in the non-invasive cardiac imaging of pediatric and adult patients with congenital heart disease. He/she will also have a proven track record of successful leadership of an academic, non-invasive cardiac imaging laboratory (e.g., associate medical director or medical director of an existing laboratory). Preference will be given to candidates who can demonstrate

sustained excellence in clinical research productivity as well as mentorship and teaching of trainees and junior faculty. The Echocardiography Laboratory at LPCHS has eight faculty members who together are responsible for the performance and interpretation of approximately 11,000 pediatric echocardiograms (transthoracic, transesophageal, and fetal) per year both on the Stanford campus and at affiliated clinical sites in the Bay Area. In addition to training categorical fellows in the Division of Pediatric Cardiology, Laboratory-based faculty members also provide advanced clinical and clinical research training to one or two senior non-invasive imaging fellows per year. All the faculty are actively engaged in clinical research and/or curriculum development.

The academic appointment will be at either at the Associate Professor or Professor rank in the Medical Center Line based on the individual's qualifications. The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and

institutional service appropriate to the programmatic need the individual is expected to fulfill.

Applications will be reviewed beginning September 2016 and accepted until the position is filled.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university's research, teaching and clinical missions.

Submit a CV, brief letter explaining your interest, and the names of three references to:

Anne Dubin, MD, Professor of Pediatrics (Cardiology), care of Tara Smalley Thomas, Division of Pediatric Cardiology, 750 Welch Road, Suite 325, Palo Alto, CA 94304.

FEEL THE PULSE AT A TOP-RATED HEART HOSPITAL

Gundersen Health System, La Crosse, WI, is seeking a BC/BE Cardiologist. Join a well-established and progressive team comprised of non-invasive and interventional cardiologists, physician assistants and nurse practitioners, an electrophysiologist, and a well-established cardiovascular surgery team. Enjoy a blend of both inpatient and outpatient cardiology.

Practice highlights:

- America's 50 Best Hospitals (2014-2016) by Healthgrades® placing Gundersen in the top 1% in the nation for the third consecutive year
- Priority One heart attack program relies on a high level of collaboration among regional emergency responders and community hospitals to provide efficient and effective care
- Dual source CT scanner and cardiac MRI provide diagnostic and procedural capabilities like those utilized in major urban areas
- Physicians participate in nationally and internationally recognized research and clinical tests of devices, procedures and pharmaceuticals

Gundersen is a physician-led, not-for-profit health system with a top-ranked teaching hospital and one of the largest multi-specialty group practices with approximately 700 physicians and associate staff. Telemedicine, specialty outreach, electronic health records and digital imaging connect Gundersen with our many regional clinics, affiliate hospitals and practitioners.

La Crosse is a vibrant city, nestled along the Mississippi River. The historic downtown and riverfront host many festivals and events. Excellent schools and universities, parks, sports venues, museums and affordable housing make this a great place to call home.

Where Caring Meets Excellence

Assistant/Associate Professor of Cardiology

The Department of Medicine, Division of Cardiology at the University of South Alabama is seeking a BC/BE non-invasive cardiologist, at the assistant or associate professor level, to join a collaborative group of 6 academic cardiologists. The division includes an established cardiovascular disease fellowship training program, an ICAEL accredited Echo Lab and an ICANL accredited Nuclear Lab, and the regions only Level 1 Trauma Center.

Cardiac invasive and interventional services and a comprehensive cardiac surgery program are available. Commitment to clinical service and teaching duties are the highlights of this position. Research opportunities and faculty mentoring are also available. Faculty expectations include:

- Staffing the non-invasive laboratory overseeing the performance of stress testing with or without imaging, electrocardiograms, ambulatory ECGs, echocardiograms, transthoracic and transesophageal, and elective cardioversions.
- Providing outpatient cardiology clinic coverage, with a wide patient referral base. Supervise cardiology fellows' outpatient clinics.
- Instructing medical students and trainees in ACGME-approved internal medicine and family practice residencies, and cardiovascular diseases fellowship on inpatient services and in the Heart Center.
- Working collaboratively in interdisciplinary teams of other faculty physicians, trainees, nurse practitioners, physician assistants and other staff members. Collaborate on quality initiatives, including the cardiothoracic surgery Heart Team quality improvement project and the Heart Failure Team project.

Required Skills:

BC/BE in Cardiology

Level II training in Echocardiography

Preferred Skills:

Level II training in Nuclear Cardiology

Level II training in Transesophageal Echocardiography

Experience in peripheral vascular imaging

Mobile, Alabama is a vibrant, multicultural, university town situated on the beautiful "Emerald Coast" of the Gulf of Mexico. It boasts a moderate, sunny climate and equally moderate cost of living.

Recommendations for candidates and those interested in applying should contact:

Bassam Omar, M.D., Ph.D.

Neuro-Physiological Testing for Primary Care Physicians

**Reimburses using 6 CPT Codes;
 National Average = \$800**

Takes 10-15 minutes to prep patient, 20 minutes to test; Analyzes: brain (EEG) brain processing speed (Evoke Potentials), heart health (EKG) mental health (neuropsychology); Each test is processed into a fully-finished, clinically actionable report; Easy to understand biomarkers facilitate more informed medical interventions, such as biofeedback.

Allergy Testing and Treatment - for the Non Allergist

With 40-50% of patients showing sensitivity to at least 1 allergen, allergies are reaching epidemic proportions. Because of this, a comprehensive Allergy Testing and Treatment Program is essential in any medical office.

Any staff can perform the test (CLIA Free), which takes 2 minutes to perform and 15 minutes to show results. No High Risk Allergens. Stop patients from relying on Over-The-Counter Drugs to live.

**CPT Code 95004 x 80
 (Standard Panel)
 National Average \$500 per test**
