UROLOGY

American Urological Association (AUA) Annual Meeting
May 12 - May 16, 2017 - Boston, MA

Where Quality of Life and Quality of Care Come Together

Urology Opportunities Available The Berkshires~Western Massachusetts

JOIN THE HEALTHCARE TEAM AT BERKSHIRE HEALTH SYSTEMS!

Berkshire Health Systems is currently seeking a BC/BE Robotics trained Urologist to join a dynamic, 4.5 physician hospital-based group. This is a full-time opportunity and will give the ideal candidate a chance to be part of a team of well-respected, well-rounded team of providers. The practice has an established robotics program and Operating Rooms with access to a DaVinci SI system.

Berkshire Medical Center is a 302 bed community teaching hospital, a major teaching affiliate of the University Of Massachusetts School Of Medicine, and is the region's leading provider of comprehensive health care services.

This is a great opportunity to practice in a beautiful and culturally rich area while being affiliated with a health system that features award-winning programs, nationally recognized physicians, and world class technology. At BMC we are delivering the kind of advanced health care most commonly found in large metropolitan centers.

Berkshire Health Systems offers a competitive salary and benefits package, including relocation assistance.

Interested candidates are invited to contact:

Liz Mahan, Physician Recruitment Specialist

Boston: A Seafood Mecca

Taste the fresh and delicious seafood of the city.

Boston is one of the oldest cities in the United States and steeped in history of our nation's founding. It is famous for its nearby premiere higher education institutions - Harvard University and Massachusetts Institute of Technology (MIT) - and is well known for its notable historic sites and tours including the celebrated Freedom Trail. With proximity to the Atlantic Ocean, this populous is also known for its fantastic seafood. Read on for a list of Boston's 10 most notable places to satisfy your taste for fresh and delicious seafood.

Neptune Oyster

Specializing in New England seafood classics, this small restaurant is famous for their warm buttered lobster rolls (served cold with mayo or hot with butter) and their wide-variety raw bar. Neptune's kitchen is also known to turn out other seafood delights like Basque-peppered Spanish octopus and cioppino.

Tip: Neptune Oyster does not take reservations; try to go as early as possible or you could be waiting in line for as long as an hour. You could also be asked to share a table with another party.

63 Salem Street, #1

Boston, MA 02113

617-742-3474

neptuneoyster.com

Island Creek Oyster Bar

This bar is the epitome of "farm fresh" - they grow their own oysters at their Duxbury Bay farm. Located inside the Hotel

Commonwealth, the restaurant boasts a 25-seat bar that is divided by a raw bar display featuring an impressive list of oysters. Also on the menu are lobsters, clams, shrimp and other seafood specialties. In addition to their extensive seafood offerings, the menu also features selections "from the land" for the non-seafood eating guests.

Tip: Oyster bar changes daily due to market availability.

500 Commonwealth Avenue

Boston, MA 02215

617-532-5300

Islandcreekoysters.com

B&G Oysters

A modern take on the classic oyster bar, combining friendly service with delicious fresh oysters and fresh, crispy fish by renowned Chef Barbara Lynch. Offerings include mussels da fra diavolo, Faroe Island salmon with ratatouille and lobster BLT.

Tip: Enjoy your meal on the outdoor patio space if the indoor space is too snug for you.

550 Tremont St,

Boston, MA 02116

617-423-0550

bandgoysters.com

The Daily Catch Restaurant

Specializing in Sicilian-style cuisine, the restaurant offers three locations to choose from (North End, Brookline and Seaport).

With proximity to the Atlantic Ocean, this populous city is known for its fantastic seafood.

This family-owned and operated restaurant is a local favorite for its monkfish marsala, black pasta and just about anything fried.

Tip: Cash only. For amazing outdoor waterfront dining, visit the Seaport location.

323 Hanover Street
Boston, MA 02213
617-523-8567
thedailycatch.com

The Oceanaire Seafood Room

This upscale national chain located in downtown Boston is our choice if you're looking for classic seafood and a great wine list. Guests can enjoy the impeccable service, mood-lighting and the decor. Dishes like Spicy Tuna Poke, Dover Sole and crab and shrimp stuffed lobster, along with lively atmosphere are why Oceanaire is a favorite for out-of-towners and locals alike.

Tip: The menu is based on market availability and changes daily. Desserts are large and sharable.

40 court street
Boston, MA 02108
617-742-2277
theoceanaire.com/locations/boston/locations.aspx

Ostra

Mediterranean flavor with minimal preparation and the freshest ingredients are the hallmark of Chef Jamie Mammano's seafood dishes at this upscale restaurant. The stylish, spacious and sophisticated décor make this place perfect for special occasions.

Tip: Enjoy an exquisite meal then take your cocktail over to the lounge to enjoy live piano music.

1 Charles Street
Boston, MA 02116
617-421-1200
ostraboston.com

Row 34

Hip, Brooklyn-like space with crisp bivalve dishes on offer, a generous wine list and 24 on-tap craft beers. Striped bass, pan-roasted cod and Jonah crab cake are what this casual, cool restaurant serves up from the same people that created Island Creek Oysters Bar.

Tip: Friday nights are a long wait; make reservations.

383 Congress Street
Boston, MA 02210
617-553-5900
row34.com

PABU Boston

The collaboration of Michael Mina and Chef Ken Tominaga (of San Francisco's Izayaka) brings you this chic, new sister restaurant located in the Millennium Tower serving Japanese-style seafood. Their menu offers small plates and entrées of sashimi, grilled roatayaki skewers and nigiri and boasts a whopping selection of 75 sakes and 22 different whiskeys.

Tip: Happy hour is available weekdays 3-6pm.

3 Franklin Street

Boston, MA 02110

857-327-7228

michaelmina.net

Ocean Prime

Ocean Prime is a modern, sophisticated space with plush booths and soft lighting that overlooks the Boston Harbor. This restaurant offers high-end surf & turf and serves only the highest quality steak and seafood. Handcrafted cocktails and a top-notch wine list round out their offerings.

Tip: On Mondays, enjoy a Prime Cheeseburger (made with their signature Prime Manhattan beef) and a side of fresh cut fries for \$25 in their jewel box-inspired lounge. Enjoy live music Thursdays through Saturdays in The Lounge.

140 Seaport Boulevard

Boston, MA 02210

617-670-1345

ocean-prime.com/locations-menus/boston

Empire

The owners of Red Lantern and GEM bring you old-world China in a sleek and massive space located in the Seaport District. Empire's open kitchen serves traditional Pan-Asian cuisine and has a respectable gluten free menu that includes Tuna Tartare, Salt & Pepper Calamari, and a selection of Sushi. The ambiance is more of a trendy club than a lounge so plan accordingly.

Tip: There is a large group minimum of \$75 per person.

1 Marina Park Drive

Boston, MA 02210

617-295-0001

THIS PLACE IS AMAZING
So is the difference **you** can make.

UROLOGIC ONCOLOGIST

Greenville, SC

Greenville Health System (GHS), the largest healthcare provider in South Carolina, seeks a fellowship-trained Urologic Oncologist to join our growing Division of Urology. The applicant will primarily operate at our main hospital near downtown Greenville. Presently, there are 11 urologists and 8 advanced practitioners within our division/department, including 2 pediatric urologists.

Applicants are expected to have completed a US or Canadian residency and a SUO-accredited fellowship in Urologic Oncology. This position involves all aspects of urologic oncology to include prostate, bladder, kidney, penile and testicular cancer. Specialty specific urologic oncologists will be considered on a case-by-case basis. The surgeon will be expected to be proficient or trained in both open and minimally invasive approaches to disease processes, and familiar with the multi-disciplinary model for urologic malignancies. Physicians are employees of GHS and subject to the rules/regulations therein.

GHS is a large multi-specialty system encompassing clinically excellent facilities with 1,662 beds on 7 campuses. We also host a level-one trauma center, a separate research facility and one of the nation's newest medical schools: University of South Carolina School of Medicine Greenville on our main campus. The Graduate Medical Education department at GHS currently has 15 residencies/fellowships, with plans to apply for a urology residency.

Greenville, SC is a beautiful place to live and work. Located along the I-85 corridor between Atlanta and Charlotte, it is one of the fastest growing areas in the country. Ideally situated near beautiful mountains, beaches and lakes, we enjoy a diverse and thriving economy, excellent quality of life and wonderful cultural and educational opportunities. **We are a Public Service Loan Forgiveness (PSLF) Program
Qualified Employer!**

Qualified candidates should submit a letter of interest and CV to Senior In-house Physician Recruiter, Kendra Hall, at: kbhall@ghs.org. Ph: 800-772-6987. EOE

**GREENVILLE
HEALTH SYSTEM**

The Columbia University Division of Urology at Mount Sinai Medical Center in Miami Beach, Florida, is seeking board certified/board eligible, fellowship trained urologists to join our full-time academic faculty. We are specifically interested in candidates who are fellowship trained in female reconstruction, as well as candidates who are interested in practicing general urology. All candidates should possess an interest in clinical urology, research and teaching.

Mount Sinai has a newly-accredited urology residency program, and faculty members are actively involved in resident and medical student education. Salary is commensurate with experience.

Good Union Medical Group Seeks Urologist 500k; 50k Signing

Union Medical Group, an 82-provider group which is part of Union Health System, currently has a Urology position available in Indiana.

- Join an existing department of 2 successful, very busy urologists.
- Optional academic involvement with Indiana University medical students and family practice residents.

You will be based right across the street from Union Hospital, a 380 bed private room facility with a da Vinci robot, recently named as the 4th most beautiful hospital in the country, while enjoying immediate access to a broad range of treatment and diagnostic facilities including imaging / MRI, urgent care, clinical laboratories and a surgeon-owned, outpatient surgery center.

- Call is 1 in 4.
- Indiana provides a physician-friendly practice environment with low malpractice rates and higher insurance reimbursement.
- This position offers a 500k salary, 50k signing bonus, 100k student loan payments, 1k/month resident stipend and comprehensive benefits.

In Terre Haute, Indiana, you will be just over one hour from Indianapolis and an easy drive to St. Louis and Chicago. Home to Indiana State University, Rose-Hulman Institute of Technology and St. Mary of the Woods College, Terre Haute is a regional hub for excellent dining, historic and cultural attractions, outdoor recreational activities and a variety of shopping options. Every member of your family will enjoy the lifestyle this diverse community has to offer.

Email introductory cover letter and CV to Marilyn Hill, Director of Physician Services, mhill@beebehealthcare.org | Beebe Medical Group Administration • www.beebehealthcare.org
These are not visa opportunities • Beebe Healthcare is non-smoking and fragrance free.

“Gig Economy”: Earn Extra Money on the Side

With the trend towards short-term employment on the rise, physicians have more choices to earn additional income. The old standards of working longer hours or growing one's practice are giving way to the stronger desire for work-life balance. Physician burn-out has also created a desire for physicians to recharge their batteries with varied and intellectually challenging assignments. According to Medscape, engaging in additional work that differs from day-to-day activities has been reported to help fend off burn-out and increase overall professional satisfaction. Earning additional income is not always the primary reason to pursue part-time employment, but it is always helpful to make extra money without impacting your day job. To follow are 6 part-time opportunities available to an entrepreneurial physician.

Use Your Writing Skills

There is almost no limit to how much a physician can make as a successful writer. Physician authors of text books can earn up to a 15% royalty, depending on the number of sales. Technical writing can pay as much as \$100 per hour. With the right job, talented physicians working solely as technical medical writers can earn as much, if not more than, physicians in clinical practice. Writing can also create opportunities in teaching, consulting and speaking, earning physicians with proven writing skills upwards of \$500 per hour. Additionally, for those who are more passionate about writing, self-publishing a book can create a passive income stream, keeping more of the proceeds in their pocket. For inspiration, Tess Gerritsen, MD (author of the Rizzoli & Isles novels and subsequent TV show) is a successful fiction writer, earning seven figures annually.

Become a Supervisor for a Practice

There are many independent practices and retail clinics headed up by nurse practitioners or physician assistants that legally require a supervising doctor on staff. The work includes reviewing charts, attending meetings with the practitioner and being available to answer questions as they arise. Calls or emails can range from 10-15 per month according to Fitzgerald Health Education Associates, a test review course provider in North Andover, Massachusetts. Physicians can earn \$10,000 to \$15,000 per year as a supervisor, and the work can be done in their free time.

Provide Online Consultations

The virtual consultation has become a popular income stream for physicians. Companies like American Well and TelaDoc lease their software to doctors who are doing consultations from the comfort of their home to current and new patients. If state laws permit, online consultation is an easy way to earn extra income because there is no overhead of travel or office space and no need to perform procedures. Also, availability to patients across the country as opposed to just your state or local area, make the potential for growth unlimited. Physicians can even write short term prescriptions as needed and fax or send them directly to the patient's local pharmacy. The average price of a 15-minute virtual consultation can range from about \$15 to \$50.

Become a Medical Expert

Work as a medical expert can range from reviewing cases to appearing in court as a witness for an attorney. Working behind the scenes reviewing cases can pay \$100-\$300 an hour and doesn't require a court appearance, where the possibility

Earning additional income is not always the primary reason to pursue part-time work, but it is always helpful to make extra money without impacting your day job.

of grueling cross-examinations can be unnerving. This can involve evaluating whether a claim has merit or writing reports that are used to adjust or settle cases. Appearing in court as an expert witness requires a strong constitution and an established area of expertise. Steve Babitsky of SEAK Inc., an expert witness training company in Falmouth Massachusetts, advises physicians interested in pursuing this path to create a website and develop a niche. Another route would be to work directly for a service that supplies expert witnesses, like SEAK or TASA Group.

Bear in mind that expert witness work is part-time work in the strictest sense to maintain the physician's legitimacy as an expert. As a result, most lawyers prefer employing a medical expert with legal work limited to 3%-5% of their overall income. Earnings can average \$2,000 to \$5,000 per case.

Work for a Nursing Home

Physicians caring for nursing home patients usually work part-time to remain focused on quality of care. Dealing with elderly and infirm patients requires deep compassion and infinite patience, which can be difficult for a doctor in a full-time position with several facilities to visit. Reuben Tovar, MD a medical director for 2 nursing home facilities in Austin TX, advises physicians to consider serving as a medical director for these facilities. The job of medical director for a nursing home averages \$70,000-\$80,000 per year and requires at least 20 hours of work per month, according to Simply Hired. This does not include an additional 10 hours per month seeing patients in the facility, which can be done in one day. Medical directors must be empathetic, reliable and specialize in older patients.

The ability to easily interface with staff and family members is also a prerequisite for a good medical director. Physicians who want to pursue the medical director-route can attend classes approved by the American Medical Directors Association (AMDA) to obtain certification.

Make House Calls

The idea sounds old-fashioned and conjures the image of the bespectacled town physician, black bag in hand, calling on his or her local bedridden patients. However, working for a company or as a freelancer can be a great job for a physician who is not interested in running a brick-and-mortar private practice, or for a new resident or a semi-retired physician winding down his or her private practice. More insurers are nudging physicians toward home visits to reduce hospital admissions. Physicians can earn up to \$70 per visit through companies like Doctors Making Housecalls or Inn House Doctor, and almost twice as much freelancing. Making house calls is ideal for physicians with means to get around quickly and easily and with patients nearby.

Once you decide to become a member of the gig economy, you'll need visit sites like Freelance MD to investigate what is available in your area. Lastly, keep an open mind - you may determine you've found your true calling and decide to turn your new gig into full-time career. ■

Female Urologic Pelvic Medicine and Reconstructive Surgeon

The Penn State Health Milton S. Hershey Medical Center is currently seeking applications for a full-time urologic surgeon with expertise in female pelvic medicine and reconstruction.

PennState Health
Milton S. Hershey
Medical Center

The successful candidate will join our established division at the Assistant, Associate or Professor level with salary commensurate with academic rank. Applicants must possess a strong commitment to patient care, resident and medical student education, clinical medicine and research. Must be either fellowship-trained or board-certified in FPMRS and have an interest in participating in a multidisciplinary pelvic floor center. Requirements also include a medical degree - M.D., D.O. or foreign equivalent, completion of an accredited residency program, licensure for the practice of medicine in the state of Pennsylvania, and board certification/eligibility in Urology.

State-of-the-art equipment, including a newly renovated urodynamic suite and access to one of our four da Vinci surgical robotic systems, will be available to the incoming urologist.

The Milton S. Hershey Medical Center is a tertiary care facility that serves central Pennsylvania and northern Maryland. We are a part of a non-profit health organization that provides high-level patient services. Our division is part of a state-of-the-art, 590-bed medical center, a Children's Hospital, Cancer Center, research facilities and outpatient office facilities. The Hershey Medical Center is the only Level I Trauma Center in south central Pennsylvania accredited for both adult and pediatric patients.

Please apply online at www.pennstateherscheycareers.com/jobs/123721

FACULTY POSITION FEMALE UROLOGY/RECONSTRUCTION Department of Surgery, Division of Urology University of Maryland School of Medicine

The Division of Urology at the University of Maryland School of Medicine seeks a BC/BE urologist interested in female urology. An interest in reconstructive urology or neuro-urology would also be helpful. Applicants should be qualified to be appointed at the rank of Assistant Professor. Responsibilities will include clinical care of urology patients, education of students, residents and fellows and participation in research programs. Practice opportunities are available at the University of Maryland Medical Center, University of Maryland Midtown Campus, Veterans' Affairs Maryland Health Care System (Baltimore) and other system locations to be determined. Opportunities for basic and clinical research are available for interested candidates.

Preference will be given to candidates with fellowship training or previous experience in female urology.

The School of Medicine is located in downtown Baltimore, Maryland, near the famous Inner Harbor and Camden Yards. UMSOM offers a full package of benefits and is an Equal Opportunity Employer. Please send curriculum vitae and a brief statement of academic and clinical interests and a list of three references to:

Michael Naslund, M.D.
Chief, Division of Urology
University of Maryland School of Medicine
Department of Surgery, Division of Urology Surgery
29 S. Greene Street Suite 500
Baltimore, MD, 21201
mnaslund@som.umaryland.edu

The University of Maryland, Baltimore is an Equal Opportunity/Affirmative Action Employer. Minorities, women, individuals with disabilities and protected veterans are encouraged to apply.

Further information about the Department of Surgery and UMSOM can be obtained at the following website: <http://medschool.umaryland.edu/>

UPMC

LIFE CHANGING MEDICINE

Lakeview Urologic Surgeons at UPMC Hamot has an exciting opportunity to practice Urology. We are seeking board eligible/board certified urologists with excellent clinical and leadership skills as we continue to build this premier urologic practice. UPMC Hamot features state of the art laparoscopic abilities, (2) prestigious DaVinci Robots, holmium and CO2 lasers with new ureteroscopy equipment and mobile lithotripter. We also feature "in-office" digital flexible cystoscopy.

UPMC Hamot is a 433-bed, Level II Trauma Center, non-profit tertiary care hospital with 18 ORs. UPMC Hamot is consistently an award winning hospital, most notably being recognized nationally by Thomson Reuters and *US News & World*. The National Research Corporation found UPMC Hamot to be the number one choice for healthcare in the Erie community. The Medical Staff has over 500 physicians representing most specialties and subspecialties and we have residency training programs in Orthopaedic Surgery, Neurology, Otolaryngology and Emergency Medicine.

If you are interested in this position or would like more information, please contact:

Christine Yost

THE UNIVERSITY OF KANSAS
MEDICAL CENTER
DEPARTMENT OF UROLOGY

The Department of Urology at the University of Kansas Medical Center is seeking a board certified or eligible urologist. We have full time faculty members in all subspecialty areas and are seeking a urologist specializing in female urology, urinary incontinence, voiding dysfunction, and neurourology.

Responsibilities include managing a busy clinical practice and teaching medical students and residents, with minimal administrative duties. This position will also present research opportunities. Fellowship training for this staff position is encouraged, but not required.

Academic rank, salary will be commensurate with experience. Interested applicants should contact Jessica McCullough at jmccullough3@kumc.edu.

An EO/AA employer.

Beth Israel Deaconess
Medical Center

HARVARD MEDICAL SCHOOL
TEACHING HOSPITAL

General Urologist Boston, Massachusetts

The Division of Urology at Beth Israel Deaconess Medical Center, a teaching hospital of Harvard Medical School, is recruiting a board certified/board eligible general urologist for a full-time faculty position. The successful candidate will have demonstrated strong clinical capabilities in the surgical care of patients with all types of urologic conditions. Responsibilities will include teaching, clinical and/or basic research, as well as patient care. The applicant may or may not be fellowship trained and will provide clinical care at the main medical center in Boston and community based clinical care centers. Academic appointment at Harvard Medical School, at the rank of Instructor or Assistant Professor, will be commensurate with experience, training and achievement in the field. Beth Israel Deaconess Medical Center, a 672-bed hospital and Level 1 Trauma Center, is renowned for excellence in patient care, biomedical research, teaching and community service. Located in the heart of Boston's Longwood Medical and Academic Area, it hosts more than three quarters of a million patient visits annually in and around Boston. The medical center is clinically affiliated with Joslin Diabetes Center and is a founding member of the Dana-Farber/Harvard Cancer Center. We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. Women and under-represented minorities are particularly encouraged to apply.

Your Health Means Everything.™

July 2017 & July 2018 ONE YEAR FELLOWSHIPS IN MINIMALLY INVASIVE UROLOGY with a focus on Uro-Oncology and Robotic Surgery

Mineola, Long Island, NY. Winthrop-University Hospital has Urology Fellowships available for 1 year in Minimally Invasive Surgery and the focus of this training is all aspects of minimally invasive Urology, advanced laparoscopic robotic assisted surgery, endo-urology and cryotherapy. This program offers the opportunity to advance one's skills in the management of the uro-oncology patient with upper and lower tract disease, inclusive of collaboration with Radiology, Pathology, Medical Oncology and Radiation Oncology. The Fellow will function as a junior attending at **Winthrop Urology, PC** and the **Department of Urology** at Winthrop-University Hospital, an academic medical center just 25 minutes from Manhattan, (one block from the LIRR Mineola station), which boasts Prostate Cancer as the #1 cancer treated.

CLINICAL:

The Fellow will be exposed to a broad variety of minimally invasive urologic oncology cases including surgical treatment of prostate, kidney, adrenal, bladder, and upper tract carcinoma. You will also have exposure to the Comprehensive Cancer Center, Clinical Trials program, and participate in all academic clinical meetings and conferences. This program offers an invaluable experience in minimally invasive urologic surgery. You will work directly with the Program Director Anthony Corcoran, MD, FACS and Chair of Urology and President of the American College of Cryosurgery, Aaron Katz, MD, FACS.

RESEARCH:

The Fellow will be a member of our urologic oncology research team which consists of full time PIs, a research coordinator, research analysts, urology residents, a database coordinator, and medical students. The research has a broad base, but focuses on urologic oncology clinical outcomes, pharmacotherapeutics, nutraceuticals and clinical investigation in genomic and biomarkers. You will be expected to prepare abstracts for submission to regional and national meetings which should generate multiple manuscripts.

EDUCATION:

The Fellow will be expected to attend and participate in our active didactic program in the Department of Urology which includes tumor board, grand rounds, journal club, morbidity and mortality, and cancer workgroup meetings. You will also be responsible for teaching residents, Physician Assistants, medical students, and visiting doctors.

Application Process:

Applicants must have completed an ACGME accredited urology residency by June 2017 for the 2017 position and by June 2018 for the 2018 position and be eligible for a medical license in NYS. CV and a letter of interest including the names and contact information of (3) professional references should be submitted to jrice@winthrop.org

DRIVEN TO BE
the best.

WellSpan Health

For the journey that is life

The Opportunity

WellSpan Health, an integrated health system in central Pennsylvania, is seeking to grow its Urology practice in Lebanon County. Join two Urologists and a Nurse Practitioner with a combined forty-five years of experience in a dynamic practice setting that has been established for ten years. The practice is in a new office, with a state of the art cancer center nearby. The organization is comprised of a multispecialty medical group of more than 1,000 physicians and advanced practice clinicians, a home care organization, six respected hospitals, more than 15,000 employees, and 130 patient care locations. WellSpan is a charitable, mission-driven organization, committed to exceptional care for all, lifelong wellness and healthy communities.

Lifestyle/Community in South Central PA

Our communities offer abundant outdoor and cultural activities, including restaurants, theatre, golf courses, hiking trails, water sports, and historic tours. The communities are a short drive from several, large metropolitan areas including the Baltimore/DC metro area and Philadelphia. If you value a strong sense of community, the more palatable pace of suburban living, and the convenience of a workplace close to home, you'll realize the advantages of considering WellSpan Health as part of your future.

The Department of Urology at UMass Memorial Medical Center, the clinical partner of the University of Massachusetts Medical School in Worcester, Massachusetts is currently seeking BC/BE urologic surgeons to expand and grow our new Department. Opportunities are available for academic positions. All candidates should possess a strong commitment to excellence in patient care and teaching. The chosen candidates will receive a highly competitive compensation/benefits package and an academic appointment commensurate with experience and training. Clinical, basic, translational, and health-related quality research opportunities are extensive in this stimulating and collegial academic environment. The Department of Urology offers physicians an extraordinary opportunity to work in a high volume academic surgical practice.

Currently, there are positions open for fellowship-trained urologists with established expertise in pelvic floor medicine, stones/endourology and pediatric urology. These subspecialists will be located at the UMass Memorial Medical Center.

UMass Memorial Medical Center is located in Worcester, MA, a community rich in history. The area offers a broad range of excellent primary and secondary schools, as well as several highly regarded colleges and universities. The area boasts numerous restaurants, theatre groups, museums and concert venues. It also offers easy access to Boston, Cape Cod and Providence, RI, all of which are less than an hour's drive away. In short, the area provides a myriad of social, cultural and recreational amenities making it a truly desirable location in which to practice and live. Worcester is the second largest city in Massachusetts and UMass Memorial serves Central Massachusetts, with a population of well over one million people. As the leading employer in the Worcester area, we look to draw talent and ideas from individuals of different backgrounds and viewpoints.

For consideration and/or additional details, please submit your CV and cover letter to:
